# Empowering Sound Physicians with Real-Time, Unified Insights

## Driving smarter ACO, RCM, & quality performance.

## About the Client

Sound Physicians is a national physician-led organization focused on enhancing **ACO performance**, **revenue integrity**, and **patient outcomes** through data-driven operations.

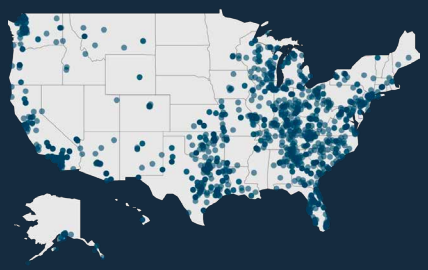
SERVING

**400+** HOSPITALS

**4K+** CLINICIANS

**45+** STATES

**2M+** PATIENTS



## The Challenge

Fragmented systems limited visibility & slowed decision-making.

30+ day reporting lag hindered timely action.

ACO and RCM data operated in silos.

Manual workflows reduced efficiency and revenue realization.

## The Breakthrough with WellStack

WellStack partnered with Sound Physicians to build an **enterprise-grade data foundation** and **Decision Hubs for ACO** and **RCM** that deliver:

- **ACO** and **RCM** data on Unified one analytics foundation.
- Onboarded **20+ data sources** for real-time, self-service insights.
- Deployed in **five months**, enabling faster reporting and AI-ready analytics.

## The Business Impact

| Impact Area | Before WellStack | After WellStack Implementation |
|---|---|---|
| Reporting Lag | 30+ days | **Real-time interactive dashboards** |
| RCM Efficiency | Manual spreadsheets | **Automated denial & AR analytics** |
| ACO Performance Tracking | Disparate sources | **Unified ACO scorecards & executive dashboards** |
| Quality Insights | Retrospective | **Predictive & proactive care quality management** |
| Data Governance | Minimal oversight | **Enterprise-wide lineage & observability framework** |

## Quantifiable Outcomes

**$5–7M** annual revenue uplift through denial recovery and AR acceleration.

Scalable **AI ready foundation** for future growth.

**40%** faster reporting turnaround.

**10–15%** improvement in quality scores.

## WellStack Delivers

**Unified Data Foundation** with with built-in governance.

Out-of-the-box **ACO & RCM analytics.**

**HIPAA/HITRUST- compliant,** scalable architecture.

Self-service **Decision Hubs** for teams.

> "WellStack's platform gives us a foundation for real-time decision-making, deeper clinical insights, and operational agility—helping us better support our clinicians and the patients they serve."
