WellStack™

The Fastest Path to a Clean, Connected, Trusted Data Foundation

Any data. Any format. Any source.

Connect Anything:
EMR, claims, HIE, CRM, devices

Trust the Data:
Governance, validation, EMPI, compliance

Onboard Fast:
6-10x faster than legacy platforms

Start Ready:
Pre-built healthcare models & normalization

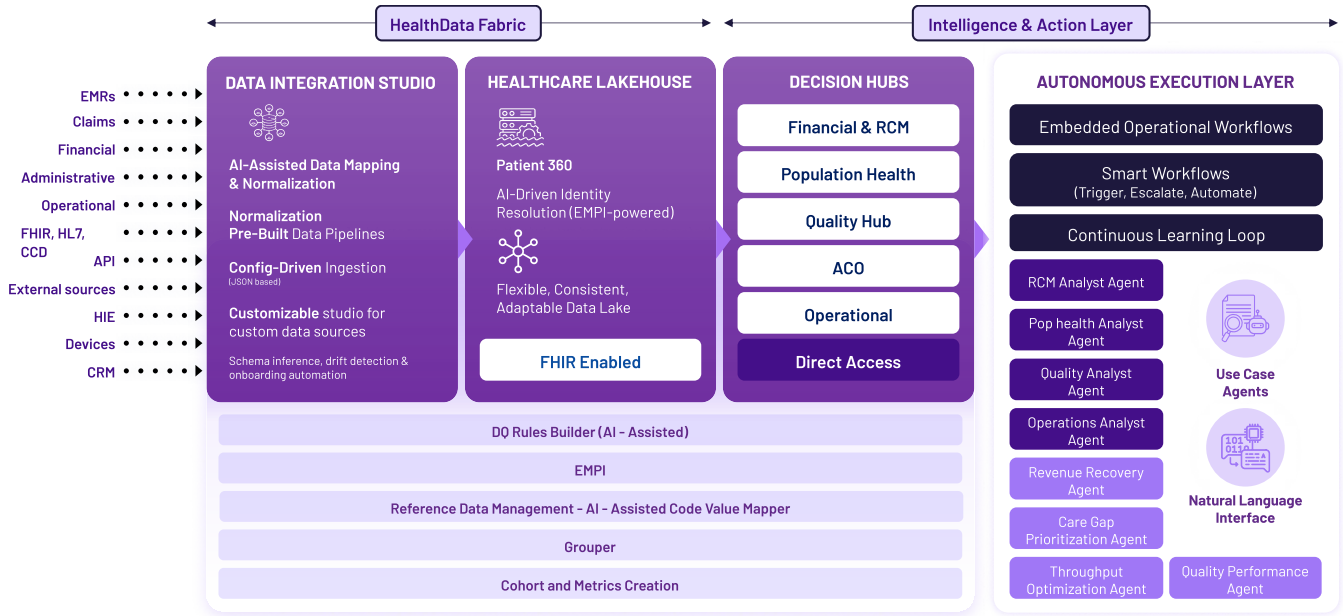
Empower Users:
Low/no-code onboarding

Flexible Fit:
Deploy Modular Platform and Unified Data Model layers into your Architecture

> "The biggest win so far is how WellStack has helped us accelerate our move into a realtime data ecosystem. Having that infrastructure in place is critical for our digital and AI initiatives."
>
> Micky Simwenyi,
> Hartford Healthcare

Ingest → Parse → Clean → Map → Validate → Deliver

WellStack's Integration Studio creates a unified data model:
The heartbeat of modern data lakes and the foundation for AI and analytics.



6x-10x faster implementation than legacy platforms

30-40% lower cost through automation

<2 weeks to onboard new data sources

Modernize your EDW and build a Trusted Data Foundation optimized for Access, Analytics and AI
